

Dexo Fine Chem Pvt. Ltd.

Dexo Chem Laboratories

*Single Step Solution for
Your Quality Control*

www.dexolab.com

We Are Here For...

- ☞ API-Pharma & Healthcare
- ☞ Specialty Chemicals
- ☞ Fertilizer & Agri products
- ☞ Dyes & Pigments
- ☞ Polymer & Textile
- ☞ Also for Formulation Industries

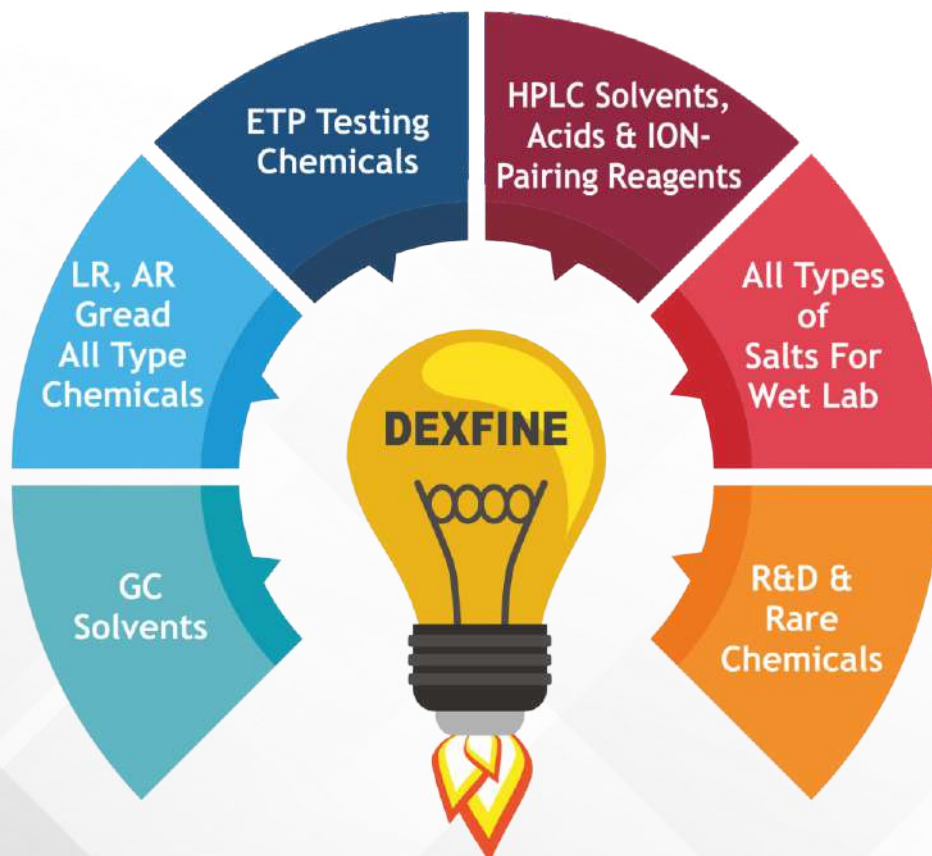

Moisture estimation with DEXFINE'S

Karl Fischer Reagent

Product Features

- Suitable for liquid and solid analysis
- Consistent and stable factor up to 6.0 mg. of water
- Effective measuring range - 100 ppm to 100%
- High accuracy and precision with minimum sample size
- Accurate result in manual / automatic instruments

Water standard for
Karl Fischer titration

Laboratory & Analytical Reagents, LR & AR Grade

This GREAD COVERS A WIDE RANGE CHEMICALS USED AS GENRAL PURPOSE REAGENTS BY ALL TYPES OF CHEMICAL LABORATORIES FOR THEIR DAY TO DAY APPLICATIONS.

- All Types of Solvents
- All Types Acid & Base
- All Types of Organic & Inorganic Slats

INDICATORS FOR ANALYSIS.....

- All Types of Indicator For Wet Lab Analysis
- Ph Indicators

SOLUTION FOR ANALYSIS.....

- Ready Solutions of All Types Inorganic Salts
- Stander Buffures Solutions
- Acid & Base 0.1 N Solution

HPLC GREADE CHEMICALS

Specially made solvents suitable for high performance liquid chromatography analysis. Our range of HPLC chemicals provides reproducibility in the results & maximum throughput to our customers.

- Hi-Purity and UV transmittance
- Low levels of non-volatile matters, moisture content, acidity and alkalinity
- Low backgrounds free of additional peaks
- Filtered through 0.2 micron filter

GC GREADE CHEMICALS

Specially made solvents suitable for high performance liquid chromatography analysis. Our range of HPLC chemicals provides reproducibility in the results & maximum throughput to our customers.

- Exclusively designed for analyses of residual solvents described in the European Pharmacopoeia (Ph. Eur.), United States Pharmacopoeia (USP) and Q3C guidelines of International Conference on Harmonization (ICH)
- Elimination of any major interference peaks in the elution range of target analyses
- Specifically designed manufacturing processes, stringent in-process quality checks and control
- Function tested to ensure optimization for headspace applications
- Excellent batch-to-batch consistency.

ION-PAIRING REAGENTS FOR HPLC

Alkanesulfonate ion-pairing reagents which are used as mobile phase additives for separations of ionic (particularly cationic) & highly polar substance on reverse phase HPLC columns.

- Hi-Purity of NLT 99%
- Low UV absorbance
- Low contents of insoluble matter.
- High reproducibility in the results.

Bulk Size Packing Also Available

We Also Offering LR & AR Material in Bulk Size Packing...

- 25,50 & 200 LTR/KGS Packing for
- All Solvents
- All Inorganic & Organic Salts

- **'DEXFINE'** Has Manufacturing Facilities.
- Also Has In-House QC Setup For Final Product Testing.
- Committed For Standard & Quality Products.
- **'DEXFINE'** gives you fully technical support for any kind of technical problems from Director Desk.
